

Power Query Level 2

Amazing Transformations!

Course Length: 8 Hours

Course Objectives

Upon successful completion of this course, students will be able to:

- Load queries into different destinations
- Merge tables and queries
- Create statistical summaries
- Transpose and unpivot complex data
- Edit and customize query schedules
- Build formulas in queries
- Group queries

Course Content

1: Query Loading Destinations

2: Merging Tables and Queries

- One to Many Merges
- Many to Many Merges

3: Grouping and Summarizing

- Grouping and summarizing hierarchically

- Creating Summary Statistics
- Custom Columns

4: Transposing and Unpivoting Complex Data

- Unpivoting Subcategorized Tables
- Transpose stacked tables

5: Schedule Queries

- Modify Excel's Query Scheduling
- Custom scheduling with VBA

6: Power Query Formulas

- Basic Custom Formulas
- Differences from Excel/DAX
- Text Functions
- Date Functions
- Conditional Logic

7: Query Organization

- Arranging and Grouping Queries
